HITCHCOCK REFUSES POST.  
CINCINNATI, June 20.—Hitchcock today declined the national campaign manager-ship. No selection has been made as yet.  
.....

CINCINNATI, O., June 20.—Taft arrived in Cincinnati from Washington at 8 o'clock this morning—fifteen minutes before his running mate Congressman Sherman, arrived from Chicago.  
Sherman was accompanied by C. P. Taft, of the sub-committee of the national committee which will confer with Taft regarding the national chairman.

Long before the Chicago trains arrived crowds thronged the streets outside yelling for Taft. Delegations from the Business Men's club and other organizations, and two bands formed a part of the crowd.

A parade formed at the station and marched to the home of C. P. Taft, on Pike street, near the business center. Business was temporarily suspended along the line of march. At Fourth and Race streets a bunch of American beauty roses was tossed into the Taft carriage. On Pike street the marchers divided, and lined both sides of the street around the Taft home, hundreds of blue pennants being waved.

The newboy band struck up the "Star Spangled Banner" as the carriage drew up, and Taft himself led in the applause for the boys.

The candidates went inside immediately for a conference.

Hitchcock for Manager?  
CINCINNATI, O., June 20.—Vorys boosters for national chairman have just left the Taft conference, and their actions indicate Vorys will not be named. The party was headed by Wade Ellis and Myron Herrick, and seemed crestfallen. It is predicted Hitchcock will be named.

"Prosperity Blast."  
LOS ANGELES, June 20.—The Taft campaign was opened on the Pacific coast at noon today, when 250 manufacturers joined whistles in a great "Prosperity Blast."

Off to Oyster Bay.  
WASHINGTON, D. C., June 20.—President Roosevelt and wife, and Quentin and Ethel left today at 9:15 for Oyster Bay. There was a gathering of cabinet officials and of the army and navy, to bid them farewells. Official papers in the executive office were packed and sent to Oyster Bay yesterday. Loeb and the assistant forester accompanied the president. The family anticipates a quiet summer, as few engagements have been made.

A slight rise, however, may follow the heavy rains of last night. Estimates of the damage runs into millions. Thousands of acres of land are covered and the crops are ruined.

## REPUBLICANS ARE PLEASED WITH TAFT

MANY GIVE OUT INTERVIEWS COMMENDING SELECTION

VAN AUKEN KNEW SHERMAN

Says the Vice Presidential Candidate Is a Brainsy and Trustworthy Man for the Place.

Most of the republicans are generally satisfied with the results of the national convention, and say Taft and Sherman make a strong team. They regard the move as wise and conservative and say they have little fear of Bryan.

Mr. Esch's View.

"It was a great convention," said Congressman John J. Esch, who returned from Chicago today. "The sentiment was rather cold the first day, but the enthusiasm grew with each succeeding day, and wound up in harmony and good feeling."

"At no time was there any danger, as far as the delegates were concerned, of a stampede for the president, the delegation standing firm and following the instructions of their people."

"Taft is a peculiarly strong candidate. No man in the United States is better acquainted with the problem connected with our insular possessions or the construction of the Panama canal than he. There is probably no man who has a better or clearer knowledge of international questions in which the United States is connected. His numerous missions have made him familiar with the questions of the Orient and his tact, diplomacy, fairness and good judgment have made him known and respected throughout the world. He is certainly the 'Great Pacificator' of this age. His experience on the bench and his training as a lawyer will be invaluable to him in case he is elected."

"His running mate, Sherman, of New York, has had 20 years experience as a member of the house of representatives and is not unknown in this state, having delivered campaign speeches on two or three occasions. He is a man of great decision and character, and has had valuable experience as a parliamentarian. In my opinion he is the best presiding officer in the house and if elected will make a splendid presiding officer in the senate. He is exceptionally strong in New York, having allied himself with neither faction. As New York is the pivotal state his nomination will aid the party in securing the electoral vote of that state."

"The platform is, in some particulars, a new departure and it would have been impossible four years ago to have adopted or even secured consideration of some of the planks now adopted without dissent. This shows that the platform and other matters are merely the result of evolution. In some cases it did not take as an advanced a stand as we would have wished, but on a whole it is a strong document and ought to receive the support of the party everywhere."

"Naturally, I am particularly pleased with that portion which indorsed measures in which I have been particularly interested. I am also pleased to have the convention indorse that plank which indorses legislation looking to the regulation of capitalization of interstate carriers, having introduced a bill on this subject myself."

Van Auker Knows Sherman.

## MANY WIVES ARE BUYING HILLVIEW

LOT SALE IS CONTINUING WITH A RUSH

MANY GOOD LOCATIONS LEFT

Largest Crowds Expected at Manning and Wellman Addition Tomorrow when the Sale Closes

Did you ever hear of such a thing—wives buying real estate without the consent of the "head of the family"?

This is what a great many have been doing at the Manning and Wellman addition, popularly known as the Hillview place, during the last few days. Of course the buying of lots without the husband's consent is rather a rash thing for a wife to do, because some heartless graffer might come along and sell her a gold brick, but in this case it might be concluded that the man of the house would commend her action as it is impossible to be duped of lots sold by Manning and Wellman. Of course if people came out with the expectation of buying a lot and finding oil or probably a gold mine on it they would be disappointed, but probably if persuaded Manning and Wellman might consent to throw a gold mine into the bargain.

The lots in themselves are gold mines for those who wish to build or sell when the price of real estate in that section goes up, as it necessarily must in the next year or two. There is not much time left in which to get a good lot for half of what it is worth, as the sale closes promptly Sunday evening. Manning and Wellman anticipate that by that time all the lots will have been sold, although there are some good locations left.

The \$1 a week plan is as popular here in La Crosse as it has been before in other places where this real estate firm has used it. The Manning and Wellman system of lot selling has always met with public approval and especially in La Crosse. Many visitors are expected on the grounds tomorrow, as many men may want to bring their families to investigate their probable future homes before they buy. It is no more than right that the "Missus" should have the right to choose where she wants her new house. The street cars will run to the addition all day tomorrow until late in the evening and if all the lots are sold before the appointed time for the sale to close the cars will still continue to run so that people may come out and see what they missed in not taking up a lot.

The events are to be conducted under the rules of the A. A. U. of America.

## PANAMA BACHELOR A QUEER ANIMAL

HE SINGS O' NIGHTS AND STAYS OUT LATE

FRUGAL OR TOO CARELESS

Commission Report Shows Some Do Not Properly Feed Themselves; Officials Feed Them

WASHINGTON, D. C., June 20.—The Panama canal commission has found that the ordinary variety of bachelor is an incubus in the social economy of the zone. Suggestions have been made by the married members of the pay lists to institute a curfew ordinance to make them go to bed at a proper time. Now the commission has discovered that the West Indian variety of bachelor doesn't know how to feed himself properly and as a result has undertaken to do that for him since June 1st.

The West Indian bachelor, according to the Record, "is so frugal or careless that he actually denies himself the food necessary to sustain himself at the highest point of efficiency for his arduous work. To protect him from this is the object of requiring him to get his food at the mess kitchens."

He is left no choice in the matter. Like our own boyhood experiences when mother made us eat horrid string beans or squash before we could have cherry pie, he is obliged to file up to the long counter and receive his rations. He might just as well do this as he has to pay for it anyway, so he usually does. The cost of the mess is checked against his wages.

This is only one of the lamentable defects of the bachelor that has been brought to light by canal experience. According to the protests of the domestic variety of workman, he behaves very badly on almost all occasions. He refuses to go to bed at a seemly hour. He sits out under the palms and sings "My Bonnie Lies Over the Ocean" when self respecting persons have put out the lights and gone to bed. Sometimes he is boisterous when taking the early morning shower and occasions have been known when he sang riotously returning from a late dinner.

There are only two effective courses to be followed, according to the experience of the commission—treat the bachelor as a belligerent boy, or marry him off.

GIVEN LIFE SENTENCE.

SJOUX FALLS, June 20.—William Hippen, a prominent Charles Mix county farmer, today was convicted of the murder of a brother, Hans Hippen, and sentenced to a life term. Hippen was killed in a drunken row. As partial atonement Hippen conveyed all his property to the widow and children of the victim.

BALLOON LANDS SAFELY.

PITTSFIELD, Mass., June 20.—James Glidden, of Boston, and Leo Steven, aeronaut, in the balloon "Boston," have landed safely on the mountain near Putney, Vt., according to a dispatch received today. The highest elevation reached was 6,100 feet.

HATFIELD EXCURSION JULY 8

It is announced by Secretary Bentley of the board of trade that the excursion to Hatfield will be run July 8th, and that other dates heretofore announced have been cancelled.

POLITICIANS ARE BREATHLESS

Boston Financier and System Fighter Expected to Make Startling Offer Today

BOSTON, Mass., June 20.—The political world is holding its breath in anticipation of a letter from Thomas W. Lawson to Bryan offering to finance the democratic national campaign to the extent of a million dollars.

Lawson declared the republican party has deliberately and coarsely trampled in the dust the most vital republican traditions.

"In my opinion the nomination of Taft," he says, "was a fitting climax to the recent insolent attempts of professional cribbers to down the people and their traditions."

## PASTOR'S CRAZE FOR GAME HIS RUIN

KANSAS CITY, June 20.—After a second fall from grace, his congregation having once forgiven him when he confessed he had yielded to a craze for gambling, Rev. C. H. L. Brown, pastor of the Christian church at Lees Summit, Mo., is under arrest here. When arraigned his face was unshaven and his clothes ill kept, his shirt torn to shreds from six weeks of steady devotion to his passion. Brown is 33 years old and was ordained thirteen years ago.

## The Modesty of Women

Naturally makes them shrink from the delicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispels all the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating diseases, irregularity and female weakness. It always helps. It is almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle wrapper, contains no deleterious or habit-forming drugs, and every native remedial root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. B. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. B. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

The way the champs-to-be put things over the champs was nothing slow. Freeport was beaten in every department of the game from the number of hits down to the final result after an hour and a half's time spent tossing the ball around. When the grandstand was cleared the Cannons were still talking it over among themselves trying to find some solution as to how it happened, but to no avail. When they woke up the score stood 3 to 1 and to their sorrow La Crosse held the big end of the stick.

In the first half of the opening inning, Ives, the first Pretzel, was given a pass. Ireland got a hit, and Fisk in a nearly executed sacrifice sent his predecessors to the third and second sack respectively. With but one out Crockett came to bat and drove out a tall fly to Duchien, Ives, who was on third attempted to get home after the ball was caught, but it was too late. Duchien in a pretty throw to Harmer caught Ives five feet from the plate, retiring the side. In La Crosse's half of the inning Duchien was given a pass, Tracey sacrificed him to second and Safford was hit in the ribs. Hastings pounded out a hit, but by fast work Duchien was put out at home. Becker was next up and with a hit scored Safford and the grandstand went wild. Bues next up fanned out, retiring the side.

Everything went smoothly until the third inning. Duchien was the first man up and was handed a pass. Tracey repeated his performance in the first inning, and Safford pounded out a hit, scoring Duchien. Hastings hit to deep left into the hands of Ireland, and then Becker came up with a three bagger scoring Safford. Bues again retired La Crosse by fanning the air. After the third inning everything passed in the regular form until the eighth. Duchien was given a pass for the third time in the game. Tracey attempted to sacrifice, but Rouse got mixed and threw the ball to second after Duchien had reached the sack. Safford sacrificed both runners and then Hastings and Becker appeared and fanned the air.

The Pretzels made their lone run in the fifth inning. Harrod was the first man to bat and got a hit which was followed by another by Harmer. Schoonhoven. Stark sacrificed both runners and Rouse made the third hit, that inning and scored Harrod. Ives and Ireland next up went out in an easy manner, and after that the first sack was as far as a Pretzel could reach.

Both Rouse and Jones were in fair form, allowing five hits each. The first batters up each inning proved the hardest for the pitchers and bases on balls were not unusual. Good fielding on the part of both teams kept the number of hits down and fast work with men on bases several times kept the score from enlarging. Double plays were numerous, and both teams played in championship form.

## Dope Box.

Freeport again today and tomorrow. Two things left to do—win today's game, then shut them out Sunday.

Ex-First Baseman Barlow was kept busy part of the game yesterday cleaning the bats. While he was successful in making them shine, they proved too slippery to connect with the ball squarely.

Ladies' day was a feature, but being only the second time the ladies have gotten together this season they were a trifle weak in their applause. "Merry Widows" were conspicuous and after the game it was suggested that the last two rows be reserved for the wearers of the nobby but large headgear.

In the fifth inning Harmer won the sympathy of the feminine sex when he received an injury in his right mitt. His finger was split and it was necessary for him to retire and receive medical attention.

Joe Killian, the idol of the gentler sex, succeeded Harmer and received his usual ovation.

Becker made himself firm when he connected with that three-bagger in the third inning.

In the sixth inning Hastings got fussed when a young lady shouted for a hit, and forgot to hold onto the bat, letting it slide about ten feet behind him.

Umpire Bush played to the grandstand in the third inning when he benched Manager Hawley.

Fouls from Ives' bat in the fifth were more than numerous and it was not until he had bagged several of the poor variety that he was able to get one within reaching distance where Bues stopped the frolic.

In the first inning by a beautiful throw Duchien caught a man at home plate, and then in the second Safford repeated the performance.

Duchien got one hit at one time at bat. While he faced the pitcher four times he was given a pass three out of the four.

Stark or Freeport also got one hit. He faced Jones three times but was given a pass once and got a sacrifice the other time.

Becker was there with his usual two hits, one being a three-bagger. Schurich, who has been playing with Green Bay, has joined the Rockford Reds. A Rockford paper states that they expect to do still better than winning two out of every three games.

A complete reorganization of the Oshkosh management has been brought about. All the old officers and directors of the club resigned, and new ones were chosen. The association is now on better footing.

Madison and the Senators are now kicking themselves for not giving Kaphan a few days longer try-out. Since joining the Rockford Reds he has been playing the entire game for the team.

Hutton of the Reds is employing the same tactics the Chicago Sox did two years ago, when they won the pennant. He pitches his best pitchers every other day and pays no attention to rotation. The Rockford papers say "That man Eberly is a wicked chap in the box." He had fine control and was a great auxiliary to himself as a fielder.

## Rockford, 11; Madison, 2.

MADISON, Wis., June 20.—Rockford feasted on Tennessean's curves yesterday, while Kaphan pitched a steady game. The features were the hitting of Butcher and base running of Kaphan. The score:

## ITS SIGNIFICANCE.

In the Chicago national conven-  
tion the Milwaukee Journal sees the  
era of the young man in national  
politics. It declares young blood  
took a big step forward at Chicago.  
The Journal airs its view as follows:

"The Wisconsin men in that con-  
vention are not reactionaries. Even  
if the organization of the vast as-  
sembly is in the control of the old  
republican leaders of the last genera-  
tion, there is some young blood with  
new ideas pressing to the front.  
These younger men will fight though  
against big odds. They will be  
heard. They represent the insur-  
gents in the party in such states as  
South Dakota, Iowa, Nebraska and  
Wisconsin.

"The convention will indorse as  
few of the Roosevelt policies as it  
dares and still bid for the support of  
voters at the polls next November.  
The Wisconsin representatives would  
go even farther than Roosevelt. The  
Wisconsin delegation instructed  
Cooper to work in the committee on  
resolutions for some of these  
forms. They wanted the election of  
senators by the people. They want-  
ed a strong and explicit promise for  
thorough tariff revision. They de-  
manded a physical valuation of the  
railroads. They urged more power  
for the interstate commerce commis-  
sion.

"The Wisconsin men favored the  
resolution to cut down the represen-  
tation of the south in the republican  
convention, which is merely a cheap  
bid for northern negro votes, but  
which is always utilized by the ad-  
ministration to clinch about two hun-  
dred southern dummy delegates for  
their favorite candidate. That was  
another move to make government  
truly popular and more accurately  
representative. The resolution failed.  
But the Wisconsin delegation  
is to be commended because it took  
a strong stand for wiping out this  
party abuse.

"The young blood in the republi-  
can party is forging to the front. The  
young men are asserting themselves.  
There still remain mossbacks of the  
ancient civil war era, like Payne,  
Cannon, Aldrich, Platt and Fair-  
banks. Their grip is still strong. But  
ere another four years elapses let us  
hope the new type of vigorous, pro-  
gressive statesmen will be in the sad-  
dle in both parties. The corporation  
magnates and leeches who have stood  
for the let-me-alone policy, for the  
sudden attitude of inaction, if not  
reaction, who have thwarted the will  
of the people as private individuals  
and betrayed them grossly if elected  
to office, will be displaced by men  
who at least promise to listen to the  
bidding of the people instead of the  
selfish cravings of their own de-  
sires.

"The administration for the next  
four years will be a connecting link  
between the old and the new regime.  
The movement may be delayed or re-  
tarded on the surface, but the leaven  
of new ideas is working among the  
people and the mighty tide of popu-

lar demands can not be stayed per-  
manently. It will sweep away the  
men and the obstacles in the way,  
and the old reactionary leaders. Has-  
ten the new era regardless of your  
party affiliations."

Another interesting view of the  
convention is taken by the Milwau-  
kee Free Press, which scents an at-  
tempt by the national republicans to  
put Wisconsin back on the conven-  
tion system of electing delegates,  
thus taking a rap at the popular  
election of senators. The Free Press  
says:

"Was it the intention of the com-  
mittee on rules of the republican  
convention to sit upon the Wisconsin  
method of electing delegates to na-  
tional conventions? It must have  
been, for the committee reported a  
rule requiring that future delegates-  
at-large and their alternates shall be  
chosen by state conventions.

"The convention adopted an  
amendment to the report giving the  
national committee authority to pre-  
scribe the method of electing dele-  
gates. This leaves it in the power  
of a committee to order that Wiscon-  
sin delegates to the next national  
convention shall be elected in state  
convention; and state conventions,  
with authority to select delegates,  
are supposed to have been abolished  
in Wisconsin.

"The election of delegates by di-  
rect vote this year, and the fact that  
there was no protest against seating  
delegates elected in that manner; and  
the further fact that the Wisconsin  
law governing the selection of alter-  
nates and the call for the national  
convention were considerably at vari-  
ance; and the further fact that the  
convention turned down the majori-  
ty report of the committee on rules  
and adopted an amendment leaving  
the method of electing delegates to  
the national committee, which has al-  
ready recognized Wisconsin's right  
to elect them according to the law of  
the state, must be taken as having  
established the principle of direct  
election of delegates."

## IRRECONCILABLE.

The Sentinel offers the following  
growing description of the 20-minute  
ovation for La Follette at Chicago,  
admittedly greater than any demon-  
stration accorded any other candi-  
date:

"At the conclusion of McGee's  
speech an enthusiastic scene follow-  
ed, ascribed to different causes.  
Some believe it to be a La Follette  
demonstration, others say it was the  
exhibition of Roosevelt pictures."

who has been visiting her cousin,

## Cured Hemorrhages of the Lungs.

"Several years since my lungs  
were so badly affected that I had  
many hemorrhages," writes A. M.  
Ake, of Wood, Ind. "I took treat-  
ment with several physicians without  
any benefit. I then started to take  
Foley's Honey and Tar, and my lungs  
are now as sound as a bell. I recom-  
mend it in advanced stages of  
lung trouble." Foley's Honey and  
Tar stops the cough and heals the  
lungs, and prevents serious results  
from a cold. Refuse substitutes. O.

lobbies happily and who looks as  
young as the best of them. This view

## SPOTLIGHTS

## WHAT THEY ALL SAY.

Last night after the show at the  
La Crosse theater a number of travel-  
ing men were seated in the office of  
the Stoddard hotel and one elderly  
gentleman said: "I've seen all the big  
shows in the country, and most all  
the small ones that are on the road,  
and I think I know a good one when  
I see it, and the one just witnessed  
tonight by the Vandyk & Eaton  
company is far superior to eight-  
tenths of the productions that charge  
five times the price of admission.  
Those people know how to act, and  
their performance so impressed me  
that I am going back to see them  
again tomorrow night.

Above is certainly a good recom-  
mendation for the company, and they  
are deserving of the large audiences  
they are drawing.

Everybody asks, "How can they  
give such a good show for ten and  
fifteen cents?"

"The Pulse of New York" will be  
the bill tonight. On Sunday two per-  
formances (matinee and night) of  
"The Great Diamond Robbery" will  
be given.

## THE BREWERS' PLATFORM

Starting Monday night the com-  
pany will present "The Cowboy's  
Girl," "The Red Cross Nurse," and  
"East Lynne."

## It would not be easy for the worst

foes of the saloon to present in a  
calm way a stronger indictment of  
the evils which have brought the  
American saloon into disrepute than  
is admitted in this list of reforms  
which the brewers are now belatedly  
and under pressure advocating.

Nevertheless it is a matter for  
general congratulation that the  
brewers have been brought to a re-  
alization even at this late date of  
the fact that the American saloon  
as it has heretofore been conducted  
has been weighed in the balance of  
public opinion and been found want-  
ing. The time has now come, even  
in the opinion of the brewers them-  
selves, when the disreputable saloon  
must either be reformed or abol-  
ished. The tide is rising that threat-  
ens with annihilation all saloons—  
those properly conducted as well as  
those which are an open menace to  
society.

Had the brewers a decade or two  
ago perceived as clearly as they now  
do the consequences to their busi-  
ness of the course they have added  
and abetted, a doubting public would  
not now be inclined to scoff at such  
utterances as those of President Lieb-  
mann as "a deathbed repentance."—

## PICTURESQUE METAPHOR

This has given rise to some new  
metaphors which seem likely to take  
a place permanently in our politi-  
cal speech. The latest is "Can-open-  
ing." The president's views on the  
vice presidency, for example, it is  
said, have been long ago canned and  
at a certain day in the convention  
they will be spread before the hun-  
gry delegates for their delectation.  
The steam roller is another figure of  
speech likely to remain traceable to  
this convention of 1908. Any one  
overridden by the Roosevelt plan de-  
clares that the steam roller has been  
over him.—Chicago Dispatch.

It isn't the selfish man who keeps  
his troubles to himself.

BABY TORTURED  
FOR 6 MONTHS

By Terrible Itching Eczema—Face  
and Head a Solid Sore—Spread  
to His Hand and Legs—Would  
Scratch Until He Bled—Tiny Suf-  
ferer Immediately Relieved and

ENTIRELY CURED IN 2  
MONTHS BY CUTICURA

"When my son Walter was three weeks  
old, eczema appeared on his face. We did  
not know what it was so went  
to a doctor who treated him for  
three months. Then he was so  
bad that his face  
and head were  
nothing but one  
solid sore and his  
ears looked as if  
they were going to  
fall off, so we tried  
another doctor.  
He said he could  
cure him and we  
doctored there four months, the baby  
never getting any better. His hand  
and legs then had big sores on them  
and as for his sleeping, we could not  
think of it, the poor little fellow suf-  
fered so terribly. First I tied his hands  
to the crib to keep him from scratching,  
but when it got so bad I tied him in a  
shawl or he would scratch himself all  
bloody. When he was seven months old  
we tried a set of the Cuticura Remedies.  
The first application of Cuticura led  
him sleep and rest well, in one week  
the sores were gone but it stayed red  
and sometimes it would itch so we  
used Cuticura for two months, then he  
had a clear and white face. Now he is  
two years and seven months old and  
has never had eczema again. I hope  
this letter will help some who are suffer-  
ing from skin disease. Every mother  
who has a baby suffering with skin  
disease should just try Cuticura; there  
is nothing better. Mrs. Louis Beck, R.  
F.D. 3, San Antonio, Tex., Apr. 15, '07."

A single set of Cuticura Remedies is  
often sufficient to cure torturing, dis-  
figuring, itching, burning, and scaly  
humors, eczemas, rashes, and irritations,  
from infancy to age, when all other  
remedies fail.

## THE SACRIFICE OF HUGHES

A meeting of a current topics club  
of the Calvary Baptist church, New  
York city, was the occasion recently  
for some remarks about the govern-  
or of the state by the pastor, the  
Rev. R. S. McArthur, and it is of  
interest because it shows there are  
men who are serving the public and  
serving it well as a duty, and not  
to make money out of their posi-  
tions.

What Dr. McArthur said throws  
new light on the sort of lawyer Mr.  
Hughes is, although he is a young  
man for a great lawyer. He said:

"I know that Governor Hughes  
will not be a candidate for the of-  
fice of governor again. He has  
done his great work. I think I am  
perfectly safe in saying that it has  
cost him between \$60,000 and \$75,-  
000 per year to occupy the place,  
and it has made a very decided differ-  
ence in the mode of living of his  
immediate family and of his mother  
and father. It has restricted his  
family very materially. He will  
come back to private life and to mer-  
ited prosperity, which I hope will  
descend upon him in all its fullness.

This little talk probably accounts  
for the positive declaration by the  
governor that he could not accept the  
nomination for vice president, which  
he could have had but for this re-  
fusal. He has a family, and the sal-  
ary of vice president does not sup-  
port a family in official life very  
well in Washington.—Milwaukee  
Free Press.

## IMMIGRATION FOR WISCONSIN.

The publisher is just in receipt of  
the first issue of a publication known  
as the Wisconsin Homeseeker, issued  
by the Chicago & North Western Ry.  
for the purpose of stimulating immi-  
gration to Wisconsin and furnishing  
information in regard to its natural  
resources.

A series of letters from settlers is  
published in the Homeseeker, in  
which these pioneers tell in an inter-  
esting way something of their expe-  
riences in establishing new homes  
and developing their land into profit-  
able farms.

The North Western is desirous of  
securing as many more testimonials  
of this kind as possible. A letter  
from you would appeal strongly to  
the prospective homeseeker, and ev-  
ery homesteader is earnestly invited  
to write a letter telling of the crops,  
soil, climate, schools, the cost of get-  
ting a start, etc., for use in this man-  
ner, and send it to us together with  
the names and addresses of friends  
in the East who would be interested  
in having a copy of the "Homeseek-  
er," illustrated books, maps and oth-  
er literature mailed to them free of  
charge.

Address all communications on the  
subject to Mr. W. B. Kniskern, P. O.

## Billville Literary Notes

One of our leading writers was  
run over by a railroad train, but he  
will get enough in damages to pay  
for the publication of his new novel.  
The hot literary supper Wednes-  
day night was well attended. Several  
critics were present, but good order  
was preserved. There was no cutting  
and slashing.

During the first spring storm of  
the season the town clock was hit by  
lightning and put out of business.

Customer—Yes, no doubt your cof-  
fee is unsurpassable, as you say, but  
just now I only want cheese. You  
carry cheese?

Grocer—Cheese, sir; our cheese is  
absolutely unapproachable.

Customer—Eh! Oh then, you  
have only the limburger.—Boston

## Handicapped by Her Husband

Lady Mary Glyn, the wife of the  
bishop of Peterborough, was recently  
sitting in Peterborough infirmary by  
the bedside of a maid servant who  
had been taken from the palace suf-  
fering from burns. At a neighbor-  
ing bed an evangelist was speaking  
to another patient. Mistaking Lady  
Mary for the girl's mother, he ap-  
proached her with a handful of  
tracts, and the words: "Are you sav-  
ed, madame; are you sure you are  
saved?" "As nearly as a bishop's  
wife can expect to be," was Lady  
Mary's reply.—London Globe.

## Who Did?

One of our subscribers writes us  
that W. Balfour Ker's picture, "The  
First Spank" reminds him of the  
following story: A little fellow who  
had just felt the hard side of the  
spitball when tears had dried some-  
what, turned to his mother. "Moth-  
er," he asked, "did grandpa spank  
father when he was a boy?"  
"Yes," answered his mother im-  
pressively.

"And did his father whip him  
when he was little?"

"Yes."

"And did his father spank him?"

"Yes."

A pause.

"Well, who started this thing any-  
way?"—Everybody's Magazine.

## The Desire to Reform.

Frederick Van E. Jen, the Dutch  
poet and economist, discussed poverty  
at a tea in New York.

"There is enough in the world for  
us all," said Mr. Van Eeden. "No  
one would freeze, no one would starve

NATIONAL COMMITTEEMAN FROM  
ILLINOIS, AND HIS WIFE

MR. AND MRS. FRANK O. LOWDEN.

(By Hendrick.)  
CHICAGO, June 18.—Next to the  
selection of men for the presidential  
ticket the most important duty which  
devolves upon delegates to the re-  
publican national convention this  
year is the selection of republican  
national committeemen, upon whom  
will devolve the responsibility of  
naming the management for the  
campaign which is to come.

It is interesting to note at the out-  
set that Illinois returns Frank O.  
Lowden to the national committee.  
There was some talk of a rival can-  
didacy by Fred W. Upham, who is  
chairman of the Chicago committee  
on arrangements for the convention.  
Upham, however, withdrew grace-  
fully and graciously from the run-  
ning and Lowden will be returned to  
the national committee without a  
fight. This will be good news to the  
republican politicians of the country  
because Lowden has been recognized  
as a power in campaign direction. He  
is a member of the lower house of  
congress and the possessor of im-  
mense wealth. He is the husband of  
one of the Pullman girls, Mrs. Low-  
den is one of the most beautiful wo-  
men in Chicago, and she and her  
husband have done much to add to  
the gaiety of convention week.

It is believed that there will be  
a number of changes in committee  
make-up, although a majority of the  
old party war horses will undoubtedly

TO THE LAYMAN the making of a miller is  
exceedingly simple. Place a pair of over-  
alls and a hickory jumper over a mass of  
ordinary clay, a straw hat over its cranium, dust  
the whole properly, and you have a man that you  
are willing to trust with your digestive apparatus  
and future happiness.

Not if we know it!

Of course old prints and "millers' daughters"  
have done much to make the miller a picturesque  
character, but ours is an age that demands re-  
sults.

Only a thoroughly practical knowledge of farm-  
ing, engineering and chemistry, coupled with in-  
tegrity, hustle and brains has made possible the  
production—right here in La Crosse—of the  
most virile, cleanly and taste-satisfying spring  
wheat patent Flour milled anywhere—

## What is The BEST Car—

Is a question the prospective buyer never fails to ask. What is meant by the BEST car? Can anyone answer this question and give an answer that will satisfy the questioner? Probably not, although nearly every one who has studied the subject of automobiles from catalogs will venture an opinion. Now opinions carry but little weight unless expressed by those who are in a position to know. We have formed an opinion on the question of the best car but it is not based upon the literature of manufacturers' catalogs. It is based upon ten years' experience in the auto business. Do you want the assistance of experts in selecting the car best suited to your needs or are you not open to conviction. We believe we have the most reliable lines of motor cars built in America and only request an opportunity to demonstrate this fact to any prospective purchaser. Make an appointment now for a demonstration NOW. Four cylinder cars with all the latest and best mechanical ideas in auto construction from \$900 up. We also have a few second hand touring cars at low prices.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. ## WINONA MAN DROWNS IN SWAMP

WINONA, Minn., June 20.—John Simon, who has been a resident across the river from here at Bluff Siding for the past thirty years was found dead in a slough not far from his home.  
The indications were that when Simon left home yesterday morning he walked along the road to the track and then along the track to the slough. At the point where he went in the grass was somewhere crushed down. Just how he happened to get in is not known but it is supposed to have been due to the mental aberration from which he was apparently suffering on account of the extreme heat.  
The dead man was sixty-two years of age and is survived by a wife and four children, two sons aged eighteen and sixteen, and two daughters aged ten and eight.

## A Growing Institution

Remarkable Progress Along Scientific and Humanitarian Lines By the Lawrence Sanatorium.

It is a matter of more than local interest to note the recent advance made by the Lawrence Sanatorium of Minneapolis toward a position of preeminence in its particular field of operation. This is distinctively a Northwestern enterprise and to further improve its standing and strengthen its hold on its field, Dr. W. D. Lawrence, before leaving for Europe a short time since, completed its incorporation with a capital stock of \$300,000, of which \$200,000 has been paid in and the balance held as treasury stock for future betterments.

This move means that the Lawrence Sanatorium now takes first rank for expert scientific treatment of all chronic diseases and diseases of addictions to liquor and drugs. The medical and surgical staff has been greatly strengthened. Dr. Asa Wilcox, the widely known practitioner of Minneapolis, having become vice president and medical director, with a corps of efficient assistants, while Mr. H. M. Lawrence, secretary and treasurer, is now able to give his entire time to business details and the welfare and better accommodation of patients.

It is the ambition of the managers of the Lawrence Sanatorium to make it the foremost institution of its kind in the west, as well as to attract to Minneapolis the very best class of persons desiring up-to-date and conscientious treatment of their ills, to gether with the comforts of a home and congenial hygienic surroundings. They are therefore more than willing to answer all inquiries as to methods of treatment, accommodation and terms, and will give each case referred to them the most careful and conscientious consideration on its merits.

## SOCIETY

### THE WEEK IN SOCIETY.

The week in society has been one of intellectual enjoyment, rather than mere merry making, and the Chautauqua afternoons and evenings have indeed been full of unalloyed pleasure in listening to the literary and musical treats that have been presented. Numerous companies, however, have been given, among the younger set especially, and many of the young people are entertaining guests from away.

Miss Gantert's companies the first of the week were pretty affairs and enjoyed by about sixty of the young folks. Several prominent weddings have taken place, that of Miss Page and Mr. Andreas being one of the largest of the week. The marriage of Miss Catherine Kinneson to the Rev. C. B. Croxall of Lodi, Wis., will be a church wedding of next week which will be largely attended, and many other nuptials are scheduled for the months of June and July.

Out door functions are extremely popular and picnics and excursions stand first in favor. The Universalist Layman's league gave an excursion this afternoon which proved to be one of the most successful of the season.

The Schaghticoke Country club is the scene of many pleasant affairs, and its cool and luxurious club house is the mecca of many tired society folk. The coming week gives promise of being full of happy entertaining for both town and visiting guests.

## TWENTIETH CENTURY TELEPHONE GROWTH

Since the beginning of the twentieth century, more than seventy thousand telephones have been added to those previously connected with the system of the Wisconsin Telephone Company. This is an average growth of more than 10,000 a year, or nearly a thousand a month, and the increase keeps up month in and month out. Each thousand added, of course, makes the system of additional value to its patrons.

In 1900, the Wisconsin Telephone Company had in use 20,000 telephones in a population of two million. To-day there are on its own lines and those of its connecting companies, four and one-half times as many telephones in a population of about two and three-quarters millions. These figures show how the chief telephone system of the Badger State is growing towards the point when every family and every place of business in city and country will be "on the wire."

More than that, as part of the Bell system, the lines of the Wisconsin Company are included in a network which covers the country.

"Preventing Rascals" proved to be an interesting and instructive lecture to the 4,000 people assembled under the Chautauqua tent yesterday afternoon. Dr. Winship, who was billed to talk, was prevented by illness and Dr. McGuire of Kansas City took his place on the same subject.

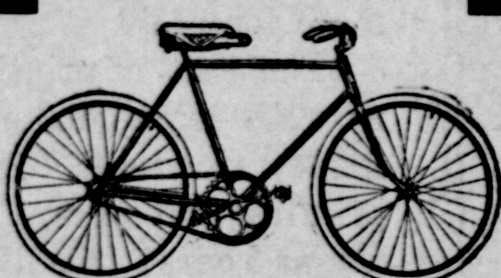

"You may think there is no connection between boys and girls and rascals," said Dr. McGuire, "but the boys and girls of today make the rascals of tomorrow. Children have four inalienable rights which are necessary to their good bringing up. The first right is the right to be well born. The second right is to have a good time, to enjoy themselves and grow up in the way that nature intended they should. The third right is to have a high and proper ideal set before them and the fourth is to have a good education. I know a little shaver that belongs to a good Methodist family and although he is not a rascal his bringing up and his ideals have been rather poor. One day the family was expecting a minister from a neighboring city. The visitor didn't arrive until rather late in the afternoon, long after the time set for dinner. Little Johnnie was detailed to entertain the minister until his mother could prepare supper for the hungry preacher. Johnnie sat and kicked his heels together and finally said: 'We are always glad when we are expecting you and you don't come.' The minister tried to look shocked and asked 'Why?' Because mamma always prepares a good dinner when we are expecting company and when the company don't come we can make hogs of ourselves."

"Another youngster had been very bad one day. His mother, a very pious woman, thought to punish him by talking religion to the poor little fellow. After she had finished this part of the torture she said, 'Now, Tommy, I am going to tell God how naughty you are,' and she proceeded to relate her troubles to the Lord. After she had finished Tommy also got down on his knees and said in a solemn voice: 'Please don't pay any attention to her Gos, because she's talking through her hat.'"

Woman the Weaker  
"It is easier and better to form a boy or girl than to reform the little one. The juvenile courts are carrying and lead decent lives. To eradicate are saving hundreds of young people from disgraceful careers. It is easier to rescue a fallen boy than it is to regain a girl that has gone bad. Judge Lindsay in a recent talk on this subject said, 'Out of the boys

brought before me eight out of ten can be redeemed but of the girls only one or two out of ten reform and lead decent lives. To eradicate rascality you must begin with the children. A bachelor can give you more advice in ten minutes about raising children than a married man with six can give you in ten days. Heredity is no doubt a great factor in the forming of a child's life, but it must not be considered the greatest. A child may be improperly born and improperly brought up in poor surroundings, but if taken while young enough and put in a proper environment that child will change for the better and in nine cases out of ten the child will change to suit the environment.

"Let the child have the right to be well born. We have scientific hog raisers, we have scientific cattle raisers, we have scientific horse raisers, but you never heard of scientific child raisers, did you?"

"The first right of the child after it is born is to have a good time and enjoy itself. If I had my way there would not be a boy or girl from the state of Maine to the state of California, from the Gulf of Mexico to the Pacific, who would have to do a day's work for pay until after the age of sixteen years. Not only are we responsible for our children, but we are also responsible for the children of the streets. There are millions of dollars worth of boulevards and parks for these things for the poor in the larger cities, do you?"

Should Have Ideals

"High ideals should be held up before children. If they have some high aim to work for and some great end to gain you can depend on that their future life will take care of itself. Their manners should be carefully looked after and the training at home is the most important part of the child's life. Once there was a little girl whose manners had been sadly neglected. Just before going to a party her mother gave her the usual instructions. 'Now, daughter, if you pass the cake a second time you must say, 'No, thank you.' The little girl arrived at the party and all went well until they passed the cake the third time and then she did not know what to do. She got out of the predicament all right and when she got home her mother began to pump her about the party. The daughter said she did the right thing when they passed the cake the second time, but when they passed it the third time she said what her father always said in a case like this. 'Take the blamed stuff away.'"

Mr. McGuire's talk ran in the same lines as Mr. Fletcher's and it proved to be very instructive and interesting.

The crowd that came to the Chautauqua last evening was the largest that has visited the grounds this week. The tent was packed to its greatest capacity and the ushers were unable to find seats for more. The Sterling Jubilee company amused the audience with their old plantation songs and were called back three times.

Mr. Goss' pictures completed the program. His moving pictures were the best ever seen in the city and the fact that there were no flickers as there usually are in ordinary performances, showed him to be an experienced operator.

## BILL IS CHANGED AT THE MAJESTIC

The bill has again changed at the Majestic, presenting a gorgeous colored representation of scenes at court in the reign of King Louis the Fourteenth. The scenes are taken from beautifully acted and historically correct representations of that period and are immensely entertaining and highly instructive. Another picture is called "Sister Barrison," which is very good. Tomorrow a double bill will be given for the price of one show and after this week, during the hot weather of the summer, the Majestic will only be open on Saturdays and Sundays. On these two days, however, the patrons and lovers of "moving pictures" can be assured of seeing all that is best and latest in the motion picture world.

## DEBATERS HOLD A JOINT BANQUET

The first joint banquet of the Lincoln Douglas and Wendell Phillips Debating societies was held last evening at the Congregational church parlors. The scene was one of feasting and long winded oratory in which the High school boys took the principal part. The room was tastefully decorated with flag and banniers.

The members of the two organizations with their girl friends sat down to the feast at about 7:30 o'clock and soon after 8 o'clock the after-dinner program was opened by Toastmaster Howard Jones. Prof. L. P. Benzot was the guest of honor. The first toast was made by Gustav Schultz who welcomed the junior debating society. He spoke of the organization of the Lincoln-Douglas Debating club and then spoke of the organization and growth of the Wendell Phillips Debating society. He told of the work being done by each organization and the friendly rivalry which existed between the two clubs. Gardner Withrow responded for the junior society and was followed by Prof. Wieland who told of the interest taken by the faculty in these debating organizations.

William Freehoff spoke on the debaters of today are the statesmen of tomorrow. He outlined the future of the societies and told of the good work they are doing in the training of the boys' minds.

City Attorney John E. Doherty gave an interesting address in which he told of the value of such debating clubs as these in the schools and referred to the organization of a university debating society in which he took part.

Emil Krause spoke on the "Character of Wendell Phillips" and Fred Dickens followed him with "A Toast to Our Athletes." The program closed with a few remarks by John M. Holley, Sr., on "Things Worth While."

Miss Lena Weimar sang several selections during the evening and the audience was favored with a violin solo by Albert Weimar.

## REPUBLICANS ARE PLEASED WITH TAFT

(Continued from page 1.)

local republican, is well acquainted personally with Sherman, the vice presidential nominee, and regards him as a particularly brainy and capable man. Mr. Van Auken was a student at Hamilton college, near Utica, N. Y., where Sherman had graduated a few years before and frequently the New Yorker came with Elihu Root and other noted republicans to participate in banquets and other events at the college. He was practically brought into politics by Timothy Woodruff and was a disciple of that school of politicians, being opposed, as it was then, to the Blaine faction which was regarded as the Wall street crowd. Mr. Van Auken believes that the addition of Mr. Sherman to the ticket was a wise move, and that he will prove a strong candidate.

W. E. Barber Enthusiastic.  
Willis E. Barber promises in republican politics of the county and state, is highly gratified at the nomination of Taft and Sherman. He forecasts their election by a large majority and declares Taft is the most acceptable man for the place of all the "favorite sons." Mr. Barber says the platform is characteristic of the conservative, progressive republican party and is bound to be viewed by the voters as a wise policy.

Taft a Progressive.  
"I think," said Attorney Frank Winter, "that the nomination of Mr. Taft was a wise one. He belongs to the progressive wing of the republican party. The platform when read carefully, is progressive and represents, essentially, Roosevelt's views and ideas. In my judgment it will be a contest between the parties in the end, in which each will support its ticket. I cannot see how William Jennings Bryan can be elected. He must carry all that Cleveland did in 1884 together with other states. In 1884 Cleveland carried New York, New Jersey, Connecticut, Delaware, and West Virginia. These states have 80 or 90 electoral votes. If Bryan doesn't carry all or substantially all of these his election is hopeless. He never has been strong in these states and they have always been reliably republican in national matters. In New York he has offended Cleveland's friends and he will not receive the support of the Parker part of the party. If Taft receives the united support of the republicans in New York it will be enough to carry the state. It is customary, after a nomination for the republicans to be uneasy and the democrats confident, but as the campaign nears its close the situation clears and it is hard to figure a democratic victory. I have no doubt but that this will be the case in the coming election. The democratic party has never come near carrying a presidential election unless at two years previous they have been victorious to the extent of demoralizing the republican party. Furthermore, the democratic party is not situated to make the fight it has in previous years."

### M'GEE URGED TO START STAMPEDE

GOV. HANLEY AND BEVERIDGE MADE PROPOSITION

### HE REFUSED THEIR REQUEST

Plan Was to Have Him Go Back and Nominate Roosevelt and Indiana Would Swing In to Start Rush

MILWAUKEE, Wis., June 20.—Few people in the great convention hall knew how near they were to another big Roosevelt explosion.

When Charles A. A. McGee sat down after making the second speech for La Follette, which set the crowd off in the remarkable demonstration that followed, Gov. Hanley and Senator Beveridge of Indiana hurried over to the Wisconsin delegation and begged McGee to go back on the platform and nominate Roosevelt.

"If you will do this," they said, "Indiana will swing right into line with Wisconsin and we can stampede the convention." Members of the Wisconsin delegation heard the offer but before they could say anything McGee replied: "I can't do it gentlemen. We are here to nominate Senator La Follette and shall stay with him to the end."

Delegates nearby added their voice to this statement and told the Indiana men to get some one else if they wanted to try to stampede the delegates. Seeing the Wisconsin men were firm Hanley and Beveridge returned to their delegation much disappointed.

### STATE DAIRY MEN COMPLAIN OF ROADS

BUTTER AND EGG TRADE RECEIVES HEAVY BLOW

### CONCENTRATION RATES OFF

Railroad Commission is Told by Portage and Reedsburg Men That Their Business Suffers

MADISON, Wis., June 20.—The state railroad commission held hearings on ten cases involving alleged overcharges for freight service, alleged excessive rates on several different commodities, passenger train service and station facilities.

One of the most important cases involved the question of concentration freight rates on butter and eggs. The petitioners, the T. H. Cochrane company of Portage and the H. H. Webb Produce company of Reedsburg, alleged that the railroad companies have recently cancelled their concentration rates on butter and eggs, which has had the effect of practically doubling the old rates and has made the dairy produce business in the interior of the state unprofitable.

Consumers Receive Blow R. L. Cochrane of Portage appeared for the petitioner. He said that the business of the Cochrane company amounted to about \$15,000 a month. The railroads, he said, had delivered a heavy blow to the dairy product business of Portage and other cities in the interior of the state. William Ellis, who represented the Milwaukee road, contended that the commission did not have authority to compel the railroad companies to give concentration rates to a certain class of dealers in certain cities. If the rates on butter and eggs were excessive, the commission, he said, had authority to order them reduced, but that was a far different thing than ordering special rate for special classes of persons at special points. The commission took the case under consideration.

A man who is in perfect health, so he can do an honest day's work when necessary, has much for which he should be thankful. Mr. L. C. Rodgers, of Branchton, Pa., writes that he was not only unable to work, but he couldn't stoop over to tie his shoes. Six bottles of Foley's Kidney Cure made a new man of him. He says, "Success to Foley's Kidney Cure." O. T. Erhart.

## DELEGATE JOHNSTONE OF ALASKA AND WIFE ATTENDING G. O. P. ROUND-UP

## MINNESOTA AND THE NORTHWEST

### TWISTER AT ADAMS CAUSES DAMAGES

TORNADO HITS SOUTHERN SECTION OF MINNESOTA

### TWO PERSONS ARE INJURED

Panic and Loss of Life Were Narrowly Averted in a Crowded School Building

ADAMS, Minn., June 20.—A cyclone passed through this village on Thursday night about 9 o'clock, doing considerable damage to property and injuring two people. It came from the southwest, without much warning, and accompanied by a heavy downpour of rain.

J. F. Majerus was closing his barn door when the barn was lifted and carried over his head, a flying piece of lumber severely injuring him.

Peter Heimer was badly cut by flying glass as he ran for shelter, and J. Krenschbach's general store had the front and rear windows blown out and the stock was badly scattered and damaged.

A very serious disaster was narrowly averted at Sabel's hall, where the parochial school was holding its closing exercises, it being a frame building and packed almost to suffocation with children and their parents. When the blow came, some one cried cyclone, and the crowd started for the exits, which could not possibly have emptied the place in less than twenty minutes, and would have probably resulted in the killing or maiming of scores of children had it not been for the coolness and presence of mind of those in charge, who called on the children to be seated, and the band struck up a tune to drown the noise outside.

### SAYS PHARMACY NEEDS COLLEGE

ALEXANDRIA, Minn., June 20.—President H. T. Holmerson, in his annual address before the convention of the Minnesota Pharmaceutical association here, urged the need of a pharmacy building at the state university and said that the department of pharmacy at that institution had done more than any other one factor to raise the standard of pharmacy in Minnesota. He said the accidents and suicides from this drug alone was appalling. A bill covering the use of carbolic acid, and not including any other drug, he believed, should be introduced at the next session of the legislature.

### IA. CYCLONE THROWS HOUSE INTO RAVINE

SIoux CITY, Iowa, June 20.—Two houses were demolished and a half dozen barns destroyed in a cyclone which visited the eastern outskirts of Sioux City. Several persons were injured, one perhaps fatally.

The residence of Mrs. Mattie B. Howe on the east limits of Greenville was picked up by the wind and tossed down a nearby ravine. The three persons in the house, Mrs. Howe, Charles Eakman, her nephew and Charles Youhill, were badly injured and narrowly escaped death. The building was dashed to kindling wood.

### BAD DOLLARS CIRCULATED

CROOKSTON, Minn., June 20.—A government official has been operating in the city for the last twelve hours following the discovery by the banks of counterfeit dollars in circulation through this city. Fifteen already have been collected. They have the same weight, ring and appearance of an ordinary dollar, but the stamp is coarser than that of the government mint and there is a defect in the milling. An analysis, said to have originated in a St. Paul chemist's laboratory, says that it contains pewter and combination of lighter elements to give the weight of balance. The origin of the counterfeit issue is not yet determined. It, however, is circulated by some local party, chiefly through the moving picture shows and the saloons.

## NORTHWEST IN BRIEF

CROOKSTON, Minn.—After fighting for eighteen hours the perils of rising water the dredge crew on the steam dredge in the Grand Marais west of here was able to disentangle the side spuds of the machine from the piling of the bridge and the machinery now is working again.

MARSHALLTOWN, Iowa.—The annual reunion of the Marshall County Veterans' association will be held in La Grand on August 5 and 6. James Cozz, who was nominated for congress from the Fifth Iowa district to succeed R. G. Cousins, has been secured to speak on the closing day. Other speakers of statewide reputation will be secured to deliver an address on the opening day.

SIoux FALLS, S. D.—A special election will be held at Leola, the county seat of McPherson county, on Monday, June 22, for the purpose of

submitting to the voters the proposition of issuing bonds in the sum of \$7,000 for the construction of a new public school building.

MONTEVIDEO, Minn.—Phillip Kief, a prominent farmer of Chipewa county, has filed as a candidate for the democratic nomination for the legislature.

SIoux FALLS, S. D.—J. K. Coe, for many years editor and proprietor of the Hamlin County News, a weekly paper published at Bryant, has purchased the plant of the Republic-Courier at Clark.

\$15,000 GIFT TO CHURCH  
The heirs of Mrs. A. D. Peavey, mother of the late Frank Peavey, the millionaire grain operator of Minneapolis, have presented to St. Thomas' Episcopal church the Peavey homestead at Twelfth and Douglas streets, for use as a rectory. The donors are

Mrs. Fred B. Wells, Mrs. Heffelfinger and George Peavey, all of Minneapolis. Mrs. Peavey was a pioneer resident of Sioux City. The estate which goes to the church was presented to her by her son. The property covers a quarter of a block in the best residence district of the city and is valued at something like \$15,000.

A Lesson in Health.  
Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. O. T. Erhart.

IRELAND TO BE SPEAKER  
GRACEVILLE, Minn., June 20.—Thirty years ago, 1878, the colony of Graceville in Big Stone county was

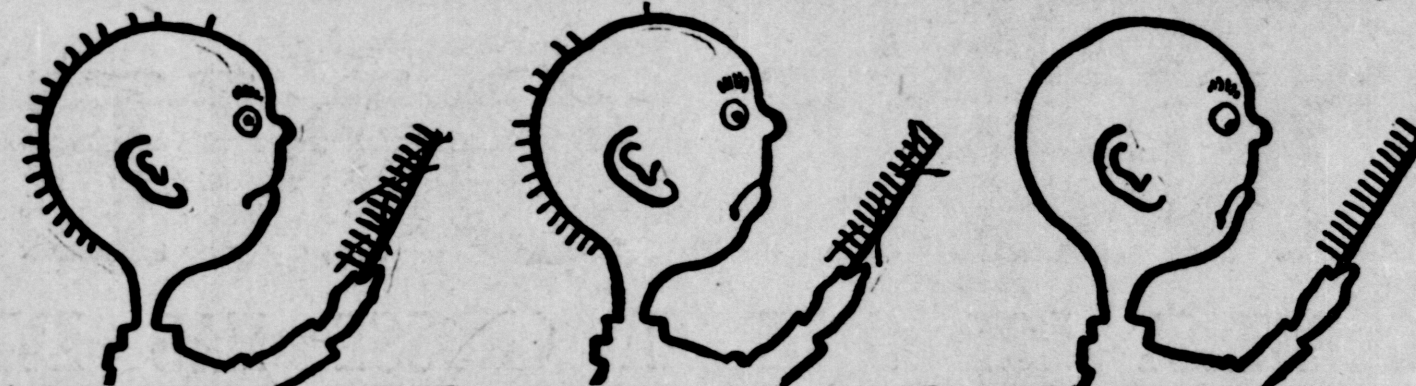

founded by Bishop Ireland. It was not his first experiment at colonization, but it proved to be far and away the most successful of his colonies and the one in which he was always most interested.

Now thirty years after its establishment, and at the archbishop's suggestion, those who are left of the original colonists, with their friends and neighbors, will meet to tell of their hardships and their ultimate triumphs. June 24 is the day set apart for rejoicing.

GOOD TEMPLARS MEET  
HALLOCK, Minn., June 20.—The Scandinavian grand lodge of Minnesota Good Templars is holding its annual meeting here with J. A. Holmquist of Hastings as grand chief templar. Forty-six candidates were given the grand lodge degree.

## SIXTEEN SEEK SALOON LICENSES

Up to yesterday there were sixteen applications for liquor licenses at the offices of the city clerk. All the applications, thus far made have been proprietors now running saloons and no new parties have made applications. No action has been taken by the council so far, owing to a number of aldermen being out of the city and there has not been a quorum present.

## We Are Still Singing The Song of Successful Graduates. We Have A Chorus of 5,728

Don't you think there must be some good reason why TOLAND graduates succeed? If it were luck, chance or caprice, do you think we could have secured positions for 5728 students, who are now earning six million dollars annually; could we have placed four hundred the past year whose salaries the first year will amount to more than \$350,000.00. Is this luck or chance, or are we working along fundamental laws in teaching, and in hustling to locate our graduates.

Can we say, without egotism, that the above record either in total, or for the past year, has never been equalled by any business school before. Do you know that statistics prove we have more successful graduates than any three other schools combined in the United States, and more than all in the Northwest combined? These are facts.

We prepare young men and women for successful business life. Won't you write us and send for catalogue. For the young man or woman who must "make good" there is no better investment of time and money. Wise parents prepare the future for their sons and daughters. What kind of a future shall this be? As for opportunity, let me add one more fact; more than a thousand graduates who are earning from \$1200 to \$6000 per year.

## CIRCUS TICKETS FREE TO JUNIORS

PRIZES WILL BE GIVEN FOR THE  
BEST STORY

## STORY ON THE GENTRY SHOW

Tribune's Little Friends Will Re-  
ceive Tickets to the Dog and  
Pony Show as Rewards

### To The Juniors:

The Tribune is going to distribute free tickets to the Gentry Dog and Pony circus, which comes here next week, among its Juniors.

The Tribune has arranged this distribution of free circus tickets in the way of a story writing contest for its Juniors which opens at once and closes Thursday, June 25th. The winners will be announced Friday, June 26th, and the prizes distributed, so that the Juniors may be all ready to go to the circus Saturday, the day it exhibits here.

The prizes are:  
First prize—Family ticket to the dog and pony show.  
Second prize—Ticket good for three people.  
Third prize—Two single tickets.  
Other prizes—The next five best stories will receive single tickets.

Conditions of Contest.  
The Juniors must write a story, under conditions named below, on one of the following named subjects, or they can write a story on the pic-

ture which appears on the Junior page today:

Subjects.  
"A DAY WITH THE GENTRY SHOW."  
"THE PARADE."  
"BABY CAMEL."  
"WHAT I ENJOY MOST AT THE GENTRY SHOW."  
"THE MOST INTERESTING ANIMAL."

Each Junior in writing must observe the following seven rules:

- 1—Use one side of the paper only.
- 2—Write neatly and legibly, using ink or a sharp lead pencil.
- 3—Number your pages.
- 4—At the bottom of the last page, write your name, age and address.
- 5—Do not copy stories or poetry and send it in as your own work.
- 6—Address your envelope to Tribune Junior Editor, La Crosse, Wis.
- 7—Your story must not contain more than 300 words.

This is an extraordinary chance for the Tribune Juniors to earn a very acceptable reward by the expenditure of a very small amount of effort on an entertaining and instructive subject, and when the contest closes on Thursday, we expect stories from about all of the Juniors in La Crosse.

**Naming the Pony.**  
In another part of this page today is the announcement of a second contest—the naming of the Tribune pony. The conditions are explained therein, and prizes will be offered the Juniors offering the best names for the Tribune pony, the same as in this story writing contest.

You can enter both contests—the story writing, and naming the Tribune pony—and if you don't win a prize in one, you may in the other. Start your story at once, and begin thinking up a nice name for the pony at once, so you will not be rushed at the last moment.

Dear Miss Burton:

It has been a long time since I wrote so I will write now. I am very glad that vacation is so near, because I am tired. In vacation I like to go to picnics and sit where it is nice and cool. I like to go to the country, too. When we go to picnics it is great fun to wade in the water (if there is any). I have not much to write this time, but I like to do most anything that is fun.

I think this is all I can write this time.

Are you going to choose captains again.

Please cross Anna May Bonneville's name off the list of Juniors. She has moved out west, to Idaho, and does not take the Tribune.

Your Junior,

EDNA JAMES,  
1216 Charles St. Age 13 years.

### LETTERS THAT WERE LEFT OVER FROM LAST WEEK

Kind Miss Burton:  
I do not think I will have a chance to come to La Crosse as I have not missed one day of school yet. Would you please send me my prize? I was greatly pleased to think I had received the prize. As our topic this week is about what we like to do Memorial day, I will try and write a little on that topic.

**MEMORIAL DAY**  
The girls of the Fifth grade, Sixth grade, Seventh grade and Eighth grade are going to be flower girls this year. We carry baskets with flowers in them to put on the soldiers' graves.

I like to put flowers on soldiers' graves, as they did so much for our country. So I think we had better do a little of what we can for them. We are going to march from the court house this year.

I have been a flower girl ever since I was in the Fourth grade. I am now in the Sixth grade.

Your Sunshiner,

MYRTLE LARSON.  
I will write a few lines on what we did Decoration day, as I have not written for two weeks. Mamma took us children down town, but it rained and was a bad day. There was a parade just the same and it was fine. Some other day we are going to a picnic. Well, I guess I will close now.

Your loving Junior,  
VERNICE PAQUETTE.

My Dear Miss Burton:

I would like to join the Junior club. I am eight years old and am in the second grade. Miss Harris is my teacher, and I like her very much. I was asked to join by Marjorie Pierce, and I want to be on the Blue side.

Your Sunshiner,  
VERNA DAVIS.

Dear Miss Burton:

I thought I would join the Junior club. I want to be on the Blue side. I'll be eight years old tomorrow and I am in the 2nd grade. My teacher's name is Miss Latamore. I guess I will close.

Your Sunshiner,  
ELIZABETH BENNETT.

Dear Miss Burton:

I enjoyed Decoration day very much and I also got two new members for the Junior club—Elizabeth Bennett and Verna Davis. I will try and write more next time, but I will close for now.

Your loving Junior,  
MARJORIE PIERCE.

(This is very good for a little girl like Marjorie to get two new members.)

Under the auspices of the Tribune a new baby pony with the Gentry shows will be named by some little La Crosse boy or girl when the show visits here next Saturday. In each of the Gentry advertisements a coupon

will be run daily. Fill out this coupon, bring or mail it to Pony Editor, Tribune, before Thursday night 7:30 as the contest closes at that time. The judges selected by the Tribune will decide which name they deem the prettiest and to the lucky sender of the name The Tribune will send a family ticket and also a permit to ride in the parade at 10 o'clock Saturday morning. In case of a tie two tickets will be given.

It is delightfully good to know you have named one of these prettily arched necked and spotted ponies. That little pony will travel all over the United States and Canada and all the little boys and girls in every town will hear the story of how the beautiful little pet got its name and when and by whom. The first coupon appears today and they will continue daily until and including Thursday night, June 25. Look for all the coupons in the Gentry ads you find and send as many names as you want to, but all must be on the coupon clipped from the advertisements.

Start tonight.

### MARGARET LIKES TO DO MANY THINGS

Dear Miss Burton:  
During vacation I am going to do a little of everything.

I like to raise chickens best. I now have thirty nice little chickens. I feed them cornmeal that papa grinds for me, and I give them water and milk to drink. Mamma says I may sell my share of the chickens and buy me an incubator for next spring. I help weed the garden and every day I get the vegetables from the garden for dinner. I also like to pick berries.

Mamma says I can pick enough white clover tops for a couch pillow, and she will show me how to make it, so I am going to learn to sew a little during vacation too.

Besides working I find lots of time to read and play. Mamma says some day when she goes to La Crosse I may go with her for a ride and she will show me the Tribune office, where my letters are printed.

Your loving Junior,  
MARGARET FARRELL.  
La Crescent, Minn.

### SOMETHING THAT WILL INTEREST EVERYBODY

One of the most interesting contests in connection with the pure food show of last week was that of the Montague Cracker and Candy company, who offered a magnificent fifty-pound stick of candy for the person guessing correctly the number of beans in a glass can. The number was 1085 and was exactly guessed by Mrs. W. J. Ennisson of 1427 Vine street. Now comes the best part of the story, instead of keeping this wonderful stick of candy—nearly as tall as herself—for the admiration and delectation of her friends, Mrs. Ennisson has generously turned it over to the little ones at St. Ann's Orphanage on Market street, where it is delighting them beyond measure.

On next Monday, the little people of St. Ann's will be joined by those from St. Michael's and together they will make merry at a picnic, at which will take place the dividing up of the huge stick of candy. Many of the St. Ann's girls are members of the Tribune Junior club.

## JUNIOR STORY

### BATTLE WITH A SNOWDRIFT

The snow began falling at noon, and when the bell rang for the afternoon session, the children flocked into the entry and made a great racket stamping the snow from their shoes. The teacher looked anxiously out at the storm that grew more and more violent. She wondered if it would be wiser to close the school and send her pupils home. Some of them were too small to battle with drifts. She was glad she waited, when she saw a sled drawn by oxen come to the door just as she was dismissing the school.

A cheery voice under a fur cap white with snow called out, "Would you like my help to get your family home, Miss Dean?"

"Indeed, I am very grateful, Mr. Harris," she replied. The children hurried into their wraps—the teacher fastening little Rosy's cloak, and tying the red hood, and helping the mittens go on. Rosy was the youngest pupil. She came to school with Brother Edward.

All the children who were going up the hill were soon sitting close together on the sled with Miss Dean, who boarded at the farmer's home. Mr. Harris covered them with blankets and as they started off they shouted good-bye to the pupils who lived near the school house, and were going to miss the fun.

The oxen slowly made their way up the hill through the snow, and halted at the gate, where the children said good night, and ran as fast as they could to their homes.

"Keep hold of Rosy every minute," Miss Dean said to Edward. "and go as fast as you can." He held his little sister's hand close, and they walked fast down the hill till she said, "I want to stop a minute, Edward, and breathe." "Yes, we will," he replied; "it'll not be long till we get home."

"I can go now," she said, and they were soon at the corner where the snow had gathered in a drift that reached quite across the road. The snow was as high as Rosy's knees, and they had to go very slowly.

"O, Edward, I must stop; my feet can't go!" she cried. The boy was alarmed, and tried to lift and carry the child, but the snow was too deep so he turned and walked backwards,

drawing Rosy after him.

"I'm going to sleep; good night," she said, and hung a dead weight in his arms. Thoroughly frightened, he exclaimed, "Rosy, you must come right along with me now!" "O, Edward, you never were cross to me before!" she wailed. "Never mind, dear little sister; be a brave girl and help me get you home; it's only a little way, now."

They had gone through the drift, but were nearly exhausted and stiff with cold.

"There's the barn! I'll try to make father hear." So Edward called as loudly as he could, and was answered by a bark, and old Ben came bounding through the snow.

"Good old fellow!" Edward cried, joyfully. Rosy was soon on his back, with both her arms clinging round his neck, and Edward keeping fast hold of her. And so Ben brought the children to their home.—Mary A. Wood in The Sunbeam.

### HERE'S FOR THE JUNIOR BOY. Be a Somebody.

Perhaps you all have read the old story of Hercules' choice. As the legend goes, when the hero was a youth just starting out in the world, he came to a fork in the road. While hesitating which to take, two beautiful women appeared to him, each advising him to take the right road to take. One told him that by following the left-hand road he would find the way easy and full of delight. It was a smooth, pleasant path under shady trees and through grassy meadows where the birds sang all the day long. They called it the road to Pleasure. The other was the road to Accomplishment. It was a hard, stony way, leading over hills and mountains, and across foaming streams, and through dangerous forests and morasses. By following it he would find many obstacles as easy as they can concern to take the smooth, pleasant but he was sure to win glory in the end.

We know, of course, which road the hero took, for if he had not taken the path to Accomplishment he never should have heard of Hercules and his twelve labors and all the brave things that he did. Many young folks ramble along as easy as they can content to take the smooth, pleasant road that requires little exertion. But the bright, ambitious boy who is determined to be "a somebody" will not travel that way. Much depends on the way you start and your determination. Of course it is much easier to walk along a smooth, level road than it is to climb; but if you do not climb, you never will reach the heights. All great men have been willing to climb. Bulwer Lytton, the famous novelist, once said in an address to a school of boys. "As I look at your young faces I go back to the days when I, too, tried for prizes, sometimes succeeding, sometimes failing. I was as fond of play as any of you and in the summer weather I fear my head might have been more full of cricket than of Terrence or even Homer. But still I always can remember that, whether at work or at play, I always had a deep, though quiet, determination, that sooner or later I would be a somebody or would do something. That determination continues with me to this hour."

Do not these words give the key to his success? He had a determination to do something, and having this object in view he became a somebody. This is the way in which we all must work if we intend doing anything worth doing at all. Work toward an end, boys, and let that end be to be a somebody. From your early school days keep this in view. Let whatever you accomplish each day be only a stepping stone to something yet

## THE TRIBUNE JUNIORS TO NAME BABY PONY WITH GENTRY BROS. SHOW

### JUNIORS CAN NAME A PONY.

The many little readers and friends of the Tribune Junior will have an opportunity to perpetuate their names and also a chance to take their families to the circus, instead of the families taking them. Here is the proposition: The recent arrival of a pretty baby pony with the Gentry shows caused the Tribune management to take up the matter of naming it with Gentry Bros., and they succeeded in being afforded

that privilege. Now they offer the chance to one of their many little readers as follows:

In each advertisement of the Gentry shows that appear in La Crosse Saturday, June 27, you will find a coupon. Fill it out carefully, send or bring to the Junior editor of The Tribune.

The contest closes Thursday night at 7:30. You can send as many names as you have coupons. The lucky winner will be picked by the

Judges selected by The Tribune at their office, Thursday night, and the result announced in Friday's Tribune. The prize is a family ticket to the Gentry shows June 27, and a permit to ride in the parade at 10 a. m. of that day. In case of a tie two family tickets will be issued. So now Juniors hurry up and send in your names.

The coupons are printed daily in every advertisement of the Gentry Bros. Dog and Pony Shows.

Suggestions from the Gentry Bros' Pony Show for you to writeabout.

### BIG PLANS FOR THE CITY PICNIC SUNDAY

A feature of the city employees' picnic to be given tomorrow will be a baseball game between the employees of the south side and the employees of the north side. The committee in charge completed arrangements and will put up several prizes for the various contests and the greatest interest is now in the ball game. The picnic will be held at the Shooting park on French island and a dinner will be served to the employees, the north side employees being the host.

Arrangements are being made to

entertain one of the largest crowds ever attending and unless the weather man interferes it will no doubt be a great success.

### SHOOTING IS CHARGED

ST. JAMES, Minn., June 20.—Chief of Police Dineen of Sioux City, Iowa, arrived here and identified a negro who was arrested on a north-bound Omaha train as Paul Cook, wanted at Sioux City on the charge of shooting a woman named Selma Arnold last Saturday. He reported that the Arnold woman was dying of her wound.

Miss Louisa Schilling of Arcadia is visiting friends in the city.

## ROCKFORD ADMITS EBERLY'S PROWESS

After Eberly had beaten the tailenders the Register-Gazette spoke in the following complimentary terms of his highness:

"The ebullient Mr. Eberly, who did the hurrying for the visitors, was stung with his easy one. Eberly hails from Hinckley, Ill., where the proud pioneers will take you to the creamery and show you the dents he puts in the door in his salad days when he was learning to master the shoots he put one another yesterday. Eberly settled to his job with the glad earnestness of a pirate on a scuttling job. They bluffed him occasionally but in the pinches he tightened like a wealthy property owner on a proposition to repave, and held the home prides off the last lap."

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. O. T. Erhart.

## LA FOLLETTE SENDS TAFT COMPLIMENTS

MADISON, Wis., June 20.—United States Senator Robert M. La Follette, late candidate for the nomination for president, sent a telegram of congratulation to William H. Taft on the latter's nomination. Following is Mr. La Follette's telegram:

"Madison, Wis., June 18.—William H. Taft, Washington, D. C.: While the platform is disappointing in some fundamental provisions and omissions and I shall claim the right to say so, I congratulate you most sincerely, and in the faith that you are more nearly in accord with the great body of republican voters than the platform, I shall do all in my power to insure your election.

### TODAY'S GRAIN GOSSIP

#### CROP CONDITIONS.

SALINA, KANSAS: Weather conditions in this part of Kansas are perfect for wheat harvest, which is progressing well; no rain has fallen since Wednesday and all the rivers are harmless.

#### GRAIN OPINIONS.

Chicago—Pringle & Co.: We think shorts control wheat now. Ware & Leland: In view of improved weather conditions south-west selling side in wheat on bulges is about right.

A. J. White & Co.: We may have a little more decline in wheat today to favor the long side on soft spots. Bartlett, Pringle & Knight McDougal buying the oats and market up sharply; extremely hot weather a factor.

### HARMES MAY BE SERIOUSLY HURT

Catcher Harmes who was injured in yesterday's game will probably be out of the game for several days. His finger was split by a ball tip and the injury is a painful one. Graves is still carrying his arm in a sling. Blood poison set in and it may prove more serious than expected. With the exception of Harmes and Graves, the team is in good condition. Flynn or Ballies will use their arms in today's game, with Killian behind the bat, while the Pretzels will send Darrah, supposed to be one of their best, in to pitch against the Colts.

Sunday Eberly will be in the box for the Colts, while Scott will probably be used by the Cannons. The attendance at yesterday's game was gratifying to the directors, and they hope to have still larger attendances in today's game and on Sunday.

President Elliott of the Baseball association received a letter this morning from Gus Whitewing, who tried out with the Colts early in the season. Whitewings is manager of the Wittenberg Indian Baseball association, which is composed of genuine American Aborigines, and he is anxious to schedule a game with some La Crosse independent team for July 10 to 13. The team starts on a tour June 21 at Merrill and is said to be a fast aggregation of ball tossers.

Up to the present no games have been scheduled, but arrangements will probably be made for that date with some team in the city.

### SHELBY PROGRAM

The Shelby school closed last Friday with commencement exercises. There were four graduates. The teacher, J. C. Johnson, had prepared an excellent program, and the pupils as well as the graduates, did ample justice to themselves. The children did some very fine singing and two selections from opera "Faust" were sung. The "Soldiers' Chorus" was especially well rendered. The school room was decorated most artistically. Rev. J. L. Panzlau of La Crosse delivered a fine address. It was a pleasing close and a highly satisfactory year's work.

#### LIBRARIANS HERE

The members of the National Congress of Librarians of Madison will stop at La Crosse this evening enroute from Madison to Minneapolis, where they will hold their annual convention at that place Monday. Henry Legler, a former La Crosse boy, is secretary of the organization and while in the city will be a guest at the home of his brother-in-law, Peter Newberg, on Cameron avenue.

### A NEW DEPARTURE.

After considerable agitation upon the part of those interested in the settlement of Government lands in the west, the Government has now designated an engineer to show prospective settlers lands within the Shoshone Project in Wyoming. This is an innovation that will be appreciated by prospective homeseekers for the reason that in the past, persons seeking Government lands have as a rule had to depend upon strangers to show them the land and point out the corners, but this is all changed now. Settlers now going to Pow-

ell, Wyoming, where the Government Engineers have their headquarters for the Shoshone Project, have one of the engineers at their service, who goes with them personally and points out the corners and gives them any information desired. These lands are all platted into farm units and the engineer who did the surveying is the one designated to show the lands. This is certainly a step in the right direction.

## WHITTIER NAMES HIS COMMITTEEMEN

LONG, LANGDON AND HUNT ON ADVERTISING COMMITTEE

WILL ADOPT BROAD SYSTEM

Letters, Post Cards, Pins, Hangers, Press Articles and Other Forms of Publicity Used

Harry C. Whittier, advertising manager of the Doerflinger department store who was appointed at a recent meeting of the Saengerfest, as chairman of the advertising committee, Thursday appointed as his assistants Harry Long, advertising manager of Gund's brewery; John E. Langdon, of the Langdon & Boyd Packing company, and William H. Hunt, advertising manager of the Listman mill. A meeting was held of the committee and plans made for the advertising of the fest which will be started at once.

One of the largest advertising campaigns ever originated in the city will be the motto of the committee and extensive preparations will be made to have one of the largest crowds attend the Saengerfest that has ever been in the city.

The committee has made arrangements to advertise extensively direct to the parties interested in the fest. The pictures of the presidents of each society will be taken and used on post cards distributed through the section where the society is located and will be followed by letters. Several letters will be sent to the parties stating the advantages and arrangements being made to accommodate the visitors and the program and other special inducements. Another means that will be used by the committee will be stories of the fest in all the papers throughout the territory interested in the Saengerfest. Other advertisements such as "hangers" and pins will be distributed in all the cities where societies are members of the Saengerbund.

Another meeting is soon to be held when final plans will be taken up and other advertising schemes will be gone over.

### Meeting Adjourned.

The meeting of the new committee held yesterday afternoon was adjourned to meet at the Second ward school house building committee room Tuesday at 4 p. m. This will be the permanent headquarters of the organization. The committee met yesterday with President Doerflinger and Secretary Utermoehle and plans were discussed. The following were added to the committee: C. W. Cowles, of the Leader-Press; Mr. Schmidt, of the Nordstern; G. Kuehn, of the Volksfreund; F. H. Burgess, of the Tribune, and J. J. Soukup, of the Vlastenek.

## THE CORNERSTONE OF HAPPINESS IS HEALTH

Prevent unhappiness by preserving health. The importance of impressing upon the average head of the family the need for medical advice of unquestionable quality, when the services of a physician are required, is so great that we tremble when we think of the unnecessary risks run by some of our leading citizens.

To the physician who has studied carefully and steadily, worked all ways toward improving the general health of his fellow beings, and who has perfected a method of treatment developed along scientific lines, which, if employed in time will absolutely bring relief, the grave mistakes made by those who do not choose wisely are appalling.

The proper employment of a right system of treatment for the relief of the average person in ill-health, is so simple to the physician of scientific attainments, that he accomplishes remarkable results with comparative ease.

Why? Because there is no guess-work about his system of treatment. He carefully studies each case, gives each individual the full benefit of his fund of scientific knowledge and familiarity with the indications of certain symptoms gained through years of practical experience.

We take pleasure in stating to our friends and neighbors that in Dr. L. M. Turbin, the eminent specialist, who comes to our city one day each month, and has done so for many years, we know they will find a physician who has proven his right to the title of one who can and will meet the requirements of the average case.

Dr. Turbin has an enviable reputation in this vicinity, has always kept his promises to his patients, and will give the best care and attention to those who consult him for any of the symptoms which cause ill-health and unhappiness.

The sufferer not only stores up future trouble for himself by neglecting symptoms of any disease indefinitely, but he learns through sad experience that chronic forms of disease do not yield to treatment readily, and if neglected too long, so deplete the system that permanent relief is not possible.

Dr. Turbin will visit La Crosse Wednesday, June 24th at the Hotel La Crosse and will be glad to give any and all callers a free consultation and advice.

## MAGNIFICENT SCENE TO DRAW TOURISTS

CREATOR'S HANDIWORK NO. WHERE MORE APPARENT

"THISTLE" AT RED WING

Mr. Trux Calls Attention to Necessity of Preserving Splendid Scenery of the Upper Mississippi

..... This is the second of a series of articles concerning the Cruise of the Thistle from St. Paul to the gulf during which Mr. M. E. Trux will gather data for a series of special articles which will appear exclusively in The Tribune (in La Crosse) during the summer.

RED WING, Minn., June 20.—(Special.)—Melville E. Trux, special correspondent of the Motor Boat Magazine, and Myron D. Savage, his assistant and engineer, are spending a day or two in Red Wing. They came down from St. Paul on the "Pope Special" boat, which they call the "Thistle," and they expect to exploit the entire length of the Mississippi river from the head of navigation to the Gulf of Mexico during the coming months.

In a talk with The Republican, Mr. Trux, who is a gentleman of large experience in literary work and a wide knowledge of men and affairs, gave his impressions of the upper Mississippi and its scenery and demands.

### Scenery Magnificent.

"Preserve the beauty of this part of the Mississippi river and its magnificent bluffs," was the slogan of Mr. Trux. "It has been my great fortune," said he in his companionable way, "to have traveled extensively on the different water courses of this country and Europe. I have no hesitation in saying that I don't recall anywhere a stretch of river of the same length which has such grand scenery from Dubuque to St. Paul. As we came in sight of Red Wing on our trip down the river, the beauty of the situation grew upon us. The wide stretch of waters with grand old Barn Bluff standing out as a distinguishing feature among the many lesser bluffs like a sentinel on duty commanding and controlling the whole scene wonderfully."

Early this morning, Mr. Trux and his companion visited Barn Bluff, where they obtained a fine view of the city and surrounding country. When seen, Mr. Trux said: "I am familiar with the palisades of the Hudson and the beauty of the Rhine, they each have a picturesqueness of their own, but for wild, unhampered scenic beauty, the view of Red Wing and its environs from the top of Barn Bluff excels them both. There is less of the artificial and more of that which the Almighty created and said that 'it was good.'"

Mr. Trux noted the injury which has been done to one side of the bluff by the recent blasting and was very severe in his condemnation of the despoilation of such a wonderful monument as nature here has created. Speaking along this line, Mr. Trux said: "Such places as your own Barn Bluff, the equally beautiful 'Sugar Loaf' at Winona and the lofty 'Grand Dad' at La Crosse, should be protected from harm and kept intact in their beauty and their grandeur for the sake of posterity."

A Tourist's Mecca. "The time will come when this upper Mississippi river valley will be visited by thousands of tourists and its beauty sought and admired as much as those of the Rhine and the Hudson are today. Commercialism should not be allowed to vandalize and destroy these massive and towering creations. They have been placed in the hands of the present generation to be cared for. They are a sacred legacy, and the people of Red Wing, Winona, La Crosse and other places which have been given such rarely beautiful heritages should regard them as precious and priceless, and transmit them unimpaired and uninjured to the millions who are to come after them. It is difficult for the people to realize what that true valuation is. The people of New York have protected by law the palisades of the Hudson from mutilation. They are checking the despoilation of Niagara Falls in the same way. Winona shields its beautiful 'Sugar Loaf.' La Crosse is looking after its great bluff equally as lovely, and the people of Red Wing should protect and guard Barn Bluff."

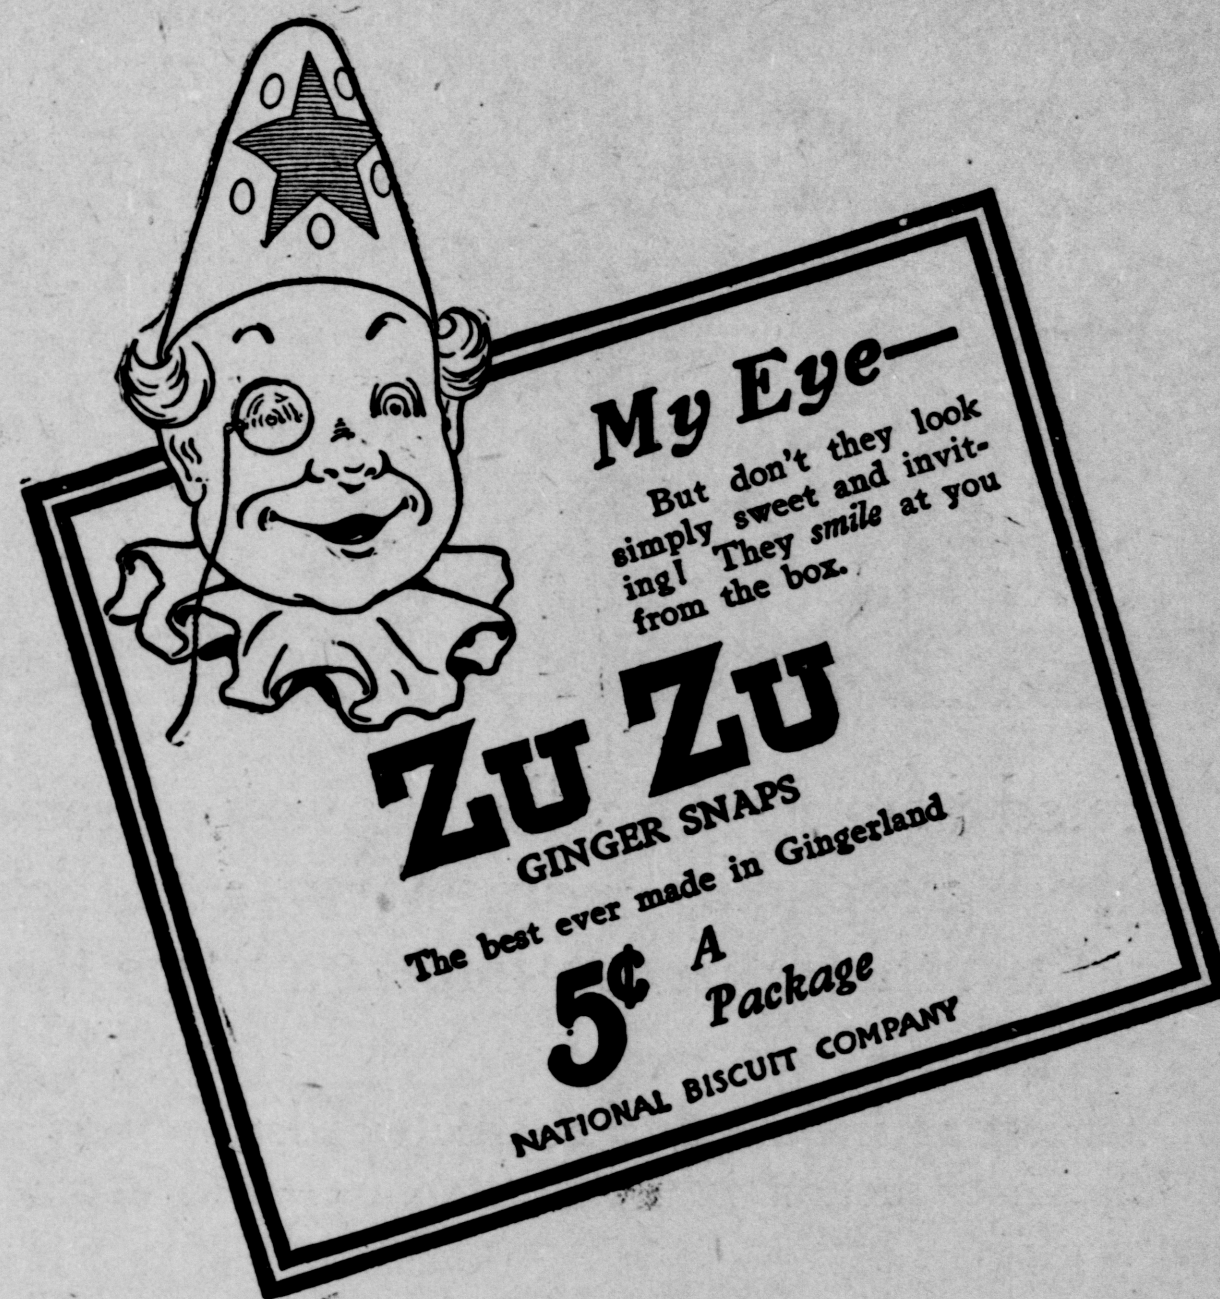

River Improvement Work. Mr. Trux is greatly interested in river improvement, and spoke very enthusiastically of the work which is being done by the Upper Mississippi Improvement association, and the splendid impetus given to the deepening of the channel by President Roosevelt and other public officials.

He is also a very enthusiastic motor boatman. He said that motor boats are used in great numbers on all eastern streams, and they are coming into more common use on the Mississippi.

Mr. Trux and Mr. Savage leave Red Wing this evening and will continue their journey to the gulf, expecting to reach New Orleans in the fall.
